# **Control Budget Website**

\_\_\_\_\_\_

# A Synopsis

# Objective/ Aim:

This project aims at developing a simple expense manager responsive website that can be used by all for tracking their expenses accordingly. The website can be used to plan out the expenses for a group of people. The user can add the initial budget for the expenses and give it a title accordingly. Further, the user can also add bills under the given budget and track her expenses accordingly.

#### **Software Requirements:**

Operating System: Windows 10

• Web Technologies: Html, php, CSS, Bootstrap

Web Server: Wampserver

• Database: MySQLi

• Software: NetBeans IDE, phpMyAdmin

#### **Navigation Structure:**

The website contains the following navigation structure.

- 1. Index Page
  - Start Today button
  - Navigation Bar
    - 1) About us link
    - 2) Sign up link
    - 3) Login link

#### 2. Sign up Page

- Registration Form
  - 1) Name field
  - 2) Email field
  - 3) Password field
  - 4) Phone number field

#### 3. Login Page

- Login form
  - 1) Email field
  - 2) Password field

#### 4. About Us Page

- Contact details
- Information about developers and website

#### 5. Home Page

For logged out user

Panel having portal for creating new plan

### For logged in user

- Panels showing existing plans
  - 1) Title of the plan
  - 2) Budget
  - 3) Date
- Navigation Bar
  - 1) About us link
  - 2) Change password link
  - 3) Log out link

### 6. Create New Plan Page

- Form to create new plan
  - 1) Initial budget of plan
  - 2) Number of people

# 7. Plan Details Page

- Form to fill form details
  - 1) Title
  - 2) Starting date

- 3) Last date
- 4) Initial budget
- 5) Number of people
- 6) Name field for each person
- 8. View Plan Page
  - Panel showing plan details
    - 1) Title
    - 2) Initial budget
    - 3) Remaining amount
    - 4) Date
  - Expense Distribution button To open Expense Distribution Page
  - Add New Expense form
    - 1) Title of expense
    - 2) Date
    - 3) Amount spent
    - 4) Select name field
    - 5) Portal for uploading bill
  - Panel showing expenses if exist
    - 1) Title
    - 2) Amount spent by person
    - 3) Person name
    - 4) Date of transaction
    - 5) Link to the bill
- 9. Expense Distribution Page
  - Panel showing expense details
    - 1) Title of plan
    - 2) Initial budget
    - 3) Amount spent by each individual
    - 4) Total amount spent
    - 5) Remaining amount
    - 6) Individual shares
    - 7) Amount each person owes or gets back
- 10. Change Password Page

- Form to reset password
  - 1) Old password field
  - 2) New password field
  - 3) Confirming new password field

# **Functional Description:**

- Everybody has access to the Index page. Registration is offered.
- Logged in users can create plans, add friends, view plan details, add expenses, upload bills, analyse individual shares and change passwords.

# **Project Work:**

#### Coding part

The project contains following coding files -

- CSS folder Contains all the images used in project.
  - 1) index.css Contains styling elements of website.
- Includes folder Contain code files which are common in other files.
  - 1) header.php Contains code for navigation bar.
  - 2) footer.php Contains code for footer of pages.
  - 3) duration.php Contains function to change format of date.
- index.php This file contains code for index page.
- home.php This file contains code for *home page*.
- about\_us.php This file contains code for about us page.
- signup.php This file contains code for sign up page.
- signup\_script.php This file has a script to save data in database and backend validations for sign up form.
- login.php This file contains code for login page.
- login\_submit.php This file has script to match data from database and backend validations for login form.
- create\_new\_plan.php This file contains code for create new plan page.

- plan\_details.php This file contains code for plan details page.
- plan\_submit.php This file has a script to save data in database for plan details form.
- view\_plan.php This file contains code for view plan page and add new expense page.
- view\_plan\_submit.php This file has a script to save data in database for add new expense form.
- bill.php This file contains code for showing uploaded bill.
- expense\_distribution.php This file contains code for expense distribution page.
- change\_password.php This file contains code for change password page.
- change\_password\_script.php This file has a script to change password, save it in the database and backend validations for change password form.
- logout.php Contains code to logout by destroying current session.

#### Database

- Name of data base budget
- Use Data collected from all the forms in website is stored in this database.
- Tables users, users\_plan, users\_group, expense

_	Tabl	a atri	. oturo	
•	i abi	e siri	ucture	-

- □ users\_plan (parent table) -> users\_group (child table)
- ☐ users\_group (parent table) -> expense (child table)

#### users table

id	name	email	password	contact
Primary auto_increment key	Name of registered user Type - varchar	Email of the user Type - varchar	Used md5 for encryption Type - varchar	Phone number Type - bigint

Type - integer				
----------------	--	--	--	--

# users\_plan table

id	user_id	title	start_date	end_date	initial_budget	no_of_people
Primary auto_increment key Type - integer	Foreign key Type - integer	Type - varchar	Type - date	Type - date	Type - Integer	Type - integer

# users\_group table
